## ABOUT US

Başak Atalay Design Studio (BADS) was founded in Istanbul in 2000. The organization which includes designers and architects, specifically provides “way finding and signage” consultancy services to architectural designers and developers. In coordination and full synchronization with the design teams during the design and execution processes, BADS’s main mission is to achieve an adequate infrastructure design and the related tender documentation for a healthy and competitive realization of the wayfinding and signage projects

**Başak ATALAY**
